

## THE SAFETY SPECIALISTS

# CONDUCT LOCAL RISK CONTROL

## RIIRIS201D – Conduct Local Risk Control

This training covers the conduct of local risk control in resources and infrastructure industries.

### Course Objectives

The Conduct Local Risk Control unit equips participants with the knowledge and skills to safely identify hazards, assess risks and identify unacceptable risk, identify, assess and implement risk treatments, and completion of records and reports.

### Course Outline

- ✓ Identify Hazards
- ✓ Assess risk and identify unacceptable risk
- ✓ Identify, assess and implement risk treatments
- ✓ Complete records and reports

Also covered are:

- ✓ Legislation
- ✓ Control Measures
- ✓ Standard Operating Procedures (SOP's)

### Assessment

Participants will be assessed via a written assessment. Participants with literacy/numeracy difficulties or physical conditions should speak with the Trainer to discuss alternative assessment approaches.

### Qualification

On successful completion, each participant will be issued with a Statement of Attainment.
