

THE SAFETY SPECIALISTS

GAS TEST ATMOSPHERES

MSMWHS217 – Gas Test Atmospheres

This unit is about testing the working atmosphere to determine if it is safe for the proposed work. Testing involves the use of electronic test apparatus.

Course Objectives

This competency requires the person to interpret readings and take actions based on the interpretation.

Course Outline

- ✓ Prepare for Gas Testing
- ✓ Test Gas
- ✓ Maintain Equipment

Assessment

Participants will be assessed via questionnaire and practical demonstration of skills. Participants with literacy/numeracy difficulties or physical conditions should speak with the Trainer to discuss alternative assessment approaches. Applicants will be required to undertake physical activity to meet all the assessment criteria to a satisfactory level.

Qualification

On successful completion, each participant will be issued with a Statement of Attainment.
