

## THE SAFETY SPECIALISTS

# CONFINED SPACE RESCUE

## PUASAR025A – Undertake Confined Space Rescue

This unit covers the competency required to undertake rescue in confined spaces, as defined in AS 2865-2009 *Confined spaces*, as a member of a single agency or multi-disciplinary team.

The application of this unit in the workplace covers a range of confined space rescue situations. The unit is typically performed by personnel from emergency services and/or volunteer organisations or organisations where confined space work is undertaken.

### Prerequisite

Any participants completing the Confined Space Rescue training unit must also have completed Operate Breathing Apparatus MSMWHS216 and Enter & Work in Confined Spaces RIIWHS202D as a prerequisite to this course. This requirement is based on the prior skills and knowledge required to successfully obtain this Statement of Attainment.

### Course Outline

- ✓ Prepare for confined space rescue operation
- ✓ Assess and manage confined space/trench rescue
- ✓ Determine location and condition of casualties
- ✓ Gain entry to confined space
- ✓ Remove casualties
- ✓ Conclude rescue operations

### Assessment

Participants will be assessed via questionnaire and practical demonstration of skills. Participants with literacy/numeracy difficulties or physical conditions should speak with the Trainer to discuss alternative assessment approaches. Applicants will be required to undertake physical activity to meet all the assessment criteria to a satisfactory level.

### Qualification

On successful completion, each participant will be issued with a Statement of Attainment.
